

Small piece of fabric

magnetic closure top

Round plate

magnetic closure bottom

Take a small piece of fabric and mark the two points where the closure must go through. Place the closure in position and attach the round plate at the back of the fabric, now bend the legs inwards with a pliers.

Sew the fabric to your purse by hand

To do the bottom one you don't need to use a piece of fabric. Just mark the purse where you would want your magnetic closure and make little holes with your scissors and place them in position
